SECTION 6: ACCIDENTAL RELEASE MEASURES

Spill /Leak Procedures: Keep unnecessary personnel away. Keep upwind. Ventilate the area. Avoid inhalation of dust from the spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.

Small Spills: Sweep up or vacuum up spillage and collect in suitable container for disposal.

Large Spills

Containment: If sweeping of a contaminated area is necessary use a dust suppressant agent which does not react with the product. Prevent entry into waterways, sewer, basements or confined areas.

Cleanup: Collect dust or particulates using a vacuum cleaner with a HEPA filter. Reduce airborne dust and prevent scattering by moistening with water.

Regulatory Requirements: Refer to Section 15 for reportable quantity and other regulatory data.

SECTION 7: HANDLING AND STORAGE

Handling Precautions: Keep formation of airborne dusts to a minimum. Do not breathe dust; do not get in eyes, on skin, or on clothing. Use only with adequate ventilation. Wash thoroughly after handling. See Section 8 for personal protective equipment.

Storage Requirements: Keep container tightly closed. Store in a well-ventilated area.

Regulatory Requirements: Not Applicable

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Controls: Ventilation should be sufficient to effectively remove and prevent buildup of any dusts or fumes that may be generated during handling or thermal processing. If engineering measures are not sufficient to maintain concentrations of dust particulates below the OEL, suitable respiratory protection must be worn.

Ventilation: Ventilation should be sufficient to remove and prevent buildup of dusts or fumes that may be generated during handling or thermal processing.

Administrative Controls: Not Applicable

Respiratory Protection: If engineering measures are not sufficient to maintain concentrations of dust particulates below the OEL, suitable respiratory protection must be worn. Respirator type: High-efficiency particulate respirator with full face piece.

Protective Clothing/Equipment: Use tight fitting goggles if dust is generated. Wear appropriate clothing to prevent repeated or prolonged skin contact.

Safety Stations: Eye wash and safety equipment should be readily available
